

Profile of Dr. Fintan Ekochin

Dr. Ekochin Fintan is one in the now two generations of the EKOCHIN Family of Doctors. He largely grew up in Nigeria with some years of childhood spent in Austria, where he added German to his Igbo and English language proficiency.

After completing Primary and Secondary schools in Nigeria he lived in Austria where he started Medical School in Vienna after studying Medical Latin and also completing a diploma in photographic equipment sales. On losing one of his Grandparents he returned and completed Medical School in Nigeria.

Postgraduate years have been spent working initially with the Human Stem Cell Transplantation project for Africa, the Parklane Specialist Hospital before going for residency training in Internal Medicine at the University of Nigeria Teaching Hospital with Rotations in India @ the Medanta Medicity Hospital and BLK both in New Delhi (2011).

On completion of specialist training he went on to do a sub specialization in Neurology and has experienced Neurology practice at the NOVANT managed Forsyth Medical Center, Winston Salem, USA (North Carolina) 2015/2016.

He is a Fellow of the West African College of Physicians (since 2016) and is currently appointed as the Head of Neurology at the ESUT Teaching Hospital Enugu as well as Senior Lecturer for Neurophysiology at the Godfrey Okoye University College of Medicine.

He served Enugu State as the Commissioner for Health between 2017 and 2019.

He also offers Consultancy services at the Regions Hospital Enugu in affiliation with Regions Neurosciences, Owerri. and is a board member of the FIT Healthcare Limited.

He is married to Dr. Cynthia and has three children.

What to expect from a virtual consultation with Dr. Fintan

Conventional Medicine	Alternative Medicine	Complementary Medicine	Integrative Medicine	Functional Medicine
				
<p>Disease focused</p> <p>Treats symptoms using drugs, radiation or surgery</p> <p>Serves as knowledge base for Western medicine.</p>	<p>Used in place of conventional medicine</p> <p>Treats symptoms using medications that are "closer to nature"</p> <p>Not all treatments are scientifically validated</p>	<p>Modern approach that uses both conventional & alternative medicines to diagnose and treat symptoms; a hybrid.</p>	<p>Combines conventional and alternative medicines in a coordinated way.</p> <p>Emphasis on data driven solutions that are safe, and patient focused.</p>	<p>Questions the foundations of conventional medicine</p> <p>Treats the patient, not the disease</p> <p>Scientifically based in systems biology, which focuses on prevention rather than treatment</p>

Dr Fintan's medical practice is an amalgamation of Orthodox and Alternative medicine. Yielding a blend which consists of elements of Complimentary, Functional, Orthomolecular as well as Lifestyle Medicine. This delivers a *pharmacologically minimalist* approach to Health care. Most consultations end *without a drug prescription*, which makes for efficient cross border client care. Whats more, no Dr has a Global practice license. So my style overcomes that hurdle.

So, are you in search of a second opinion for a medical condition? Or do you just wish to get outright effective and natural medical advice at affordable cost?

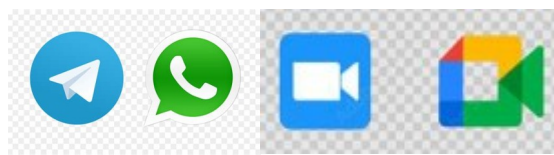

Are you still sick or even worse despite taking prescribed medications or have you been advised to write your will due to some so called "incurable condition"?

Are you open to going *Medically Offline* as it were, to find your Health?

Then you have come to the right place. Welcome!

Ready? GO! Book your Teleconsultation.

Video or Audio only consultations are available via WhatsApp, Telegram, Google Meet and Zoom.

Step One - Pick date and time and submit a short note succinctly conveying your medical challenge(s) and your expected solution. This is necessary for determining *Video* or *Audio* only consultation type.

Step Two - Make payment using any convenient option as displayed.

Step Three - Get a confirmation of payment and a link for the Teleconsultation.

Step Four - Login/Call in for the Consultation and ensure to share all relevant investigation and medication information.

Expecting you and assuring you of leaving the Consultation better than before!
